Interest rate change rules after the initial applicable interest rate period ends	<ul style="list-style-type: none"> • After the initial interest rate period ends, the interest rate will be determined based on the housing loan base rate (fixed rate) as of the month preceding each interest rate change. • By applying during the period specified by SMBC Trust Bank, you can select a housing loan with a fixed rate for 3, 5, 7, or 10 years (called a "fixed rate reselection"). However, there is a fee for making this selection. If you do not apply during the application period, your loan will be a fixed rate loan (1 year) that is subject to review every year. The same rule will be applied on future interest rate changes. • The Application period for fixed rate reselection: From the 8th day of the month preceding each interest rate change date to the 12th day of the month of the change date (by 4:30 p.m. by phone, by 3:00 p.m. at branches). * If the last day of the period falls on a bank holiday, the following business day applies. • The amount of repayment (total amount of interest and principal), and the interest rate will be revised according to the interest rate term you select. • You cannot change to another interest rate term during the period when a particular interest rate applies. • You cannot change from a fixed rate to a floating rate (1 year renewal). • The interest rate change date after "fixed rate reselection" will be the re-price date of the newly selected interest period type. The same rule will be applied on future "fixed rate reselections."
